Western Plant Health Association

## **Anhydrous Ammonia Field Tank Program**

### **Inventory Form**

**Offered by Western Plant Health Association**

#### **Introduction**

One of the primary purposes of the WPHA Transportation Committee is to continue to address potential safety concerns of ammonia transportation and delivery. During peak seasons, anhydrous ammonia is delivered to numerous field tanks throughout the state. WPHA requests your participation in a voluntary plan that will assist you in maintaining the quality and safety conditions of your field tanks. Please take a few minutes to complete and return the following survey to us.

#### **Survey**

Name of Retail Facility \_\_\_\_\_

Retail Facility Address (include zip code) \_\_\_\_\_

\_\_\_\_\_

Your Name \_\_\_\_\_

Your Mailing Address (if different than above): \_\_\_\_\_

Your E-mail Address: \_\_\_\_\_ Your Phone Number: \_\_\_\_\_

Number of Anhydrous Ammonia **Field Tanks** Your Company Owns: \_\_\_\_\_

Please list locations for each. Include City and zip code for each field tank.

Please Note: Upon receipt of this survey, WPHA will provide you with a self-audit *Anhydrous Ammonia Facility/Field Tank Safety Self-Audit Form* and information on services a WPHA-provided consultant may assist you with in the area of anhydrous ammonia field tank safety.

#### **Please return this survey to WPHA:**
